Education

- Psn College of Engineering and Technology** 2020-2024
B.E Computer Science
7.449 cgpa

Experience

- Saptarishi solutions Pvt Ltd, Hyderabad** 01/11/2025 - 03/03/2026
Software Developer
 - Led end-to-end data migration (ETL) for 15 countries from MySQL to PostgreSQL to support CRM integration.
 - Used pgloader to extract, transform, and load data.
 - Built a structured migration flow across PSA, Staging, Pre-Production, and Production environments.
 - Performed data cleaning, schema mapping, foreign key resolution, and ID mapping.
 - Implemented validation checks and logging to ensure accurate and reliable data migration.
 - Handled cases where some countries had incomplete or missing source datasets.
 - Ensured smooth deployment with transaction-safe loading and reconciliation checks before production release.
- Techved Consulting India Pvt Ltd, Mumbai** 01/01/2025 - 31/10/2025
Jr. Software Engineer

I have worked on whispering infinity app. This is a Flutter-based mobile application designed for Art of Living teachers to conduct and manage meditation courses. The app provides features for class scheduling, participant management, course content delivery, and guided meditation support. It helps teachers easily organize sessions, track progress, and offer a seamless learning experience.
- Sumeru software solution, Bangalore** 01/04/2024 - 31/12/2024
Consultant
CX-Operations
 - I have an experience in cx department at sumeru software solutions. I have worked on building art of living websites for various countries using shopamine CMS.UI/UX
